Mission

We are an educational institution that activates and accompanies the integral and uninterrupted education process for children who are the protagonists in their Preschool, Elementary, Middle and High School Education, facilitating their scientific and humanist formation and preparing new generations to live in the Global Village, preserving the fundamental ethical values and principles and caring for a sustainable future in our planet.

Vision

We offer Curie School's students the best educational practices, updating constantly our pedagogical approach to prepare them to respond to the educational challenges within the global society of the third millennium. We abide to international standards for academic excellence and our objective is to strengthen the comprehensive preparation of our graduates for continuing their studies and constantly improve themselves, providing them with the knowledge, skills, and values to be admitted and succeed in the best universities of the world and to live a rewarding life as professionals, building a better world for Humanity.
